

OUR SERVICES

Below is a list of the services we currently offer.

REFORESTATION

- Tree planting
- Planting implementation/supervision

TIMBER DEVELOPMENT & HARVESTING

- Timber reconnaissance
- Timber cruising
- Road and boundary layout
- Riparian assessment and layout
- Permitting
- Harvesting implementation
- Site plans
- Preliminary silviculture prescription data collection
- Soil disturbance surveys
- Log quality and log yard management
- Waste and residue surveys

SILVICULTURE

- Post-harvest assessments
- Stocking, regeneration and free-grow surveys
- Chemical (aerial and ground) and manual brushing crop release
- Silviculture administration (incl. RESULTS submissions)

FOREST HEALTH MANAGEMENT

- Aerial and ground forest pest surveys (fir, pine and spruce bark beetle)
- Fall and burn
- Trap tree falling
- Beetle trap and flight monitoring

WILDFIRE RISK REDUCTION

- Prescription development
- Operational (manual and mechanized) implementation
- Tree falling and falling supervision
- Wildfire danger tree assessments

WILDFIRE FIGHTING

- Type III crew deployments

INTEGRATED INDUSTRIAL VEGETATION MANAGEMENT

- Bird nesting surveys
- Treatment prescription development
- Industrial vegetation management (biological, chemical, cultural, manual and mechanized)
- Integrated pest management plan development
- Monitoring
- Provincial government use reporting

INTEGRATED INVASIVE PLANT MANAGEMENT

- Education, awareness, and prevention
- Survey
- Control (biological, chemical, cultural, manual and mechanized)
- Monitoring
- Reporting

RECLAMATION

- Prescription development
- Revegetation (seeding, fertilization, and planting)
- Erosion control

MOSQUITO CONTROL

- Survey and control
- Reporting

GEOGRAPHIC INFORMATION SYSTEM MAPPING

- Web mapping
- Spatial analysis
- Cartography
- Systems development
- Database management

UTILITY ASSET MANAGEMENT

- Structural integrity inspection and treatment of wood pole assets
- Overhead drone condition assessments
- In-house GIS mapping
- Asset data collection
- Stubbing and pole replacements
- Research and development

INTEGRATED SAFETY

- Internal responsibility programs
- Continuous improvement commitments involving training, competency, and recognition
- Audited third party compliance
- Membership and affiliations with industry safety associations
